DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Jung (US 6,046,535).

Regarding claims 1-3, Jung discloses (fig 1) a tension mask assembly with beam through holes, a sub-frame and main frame bent at a middle portion in the width direction, a portion perpendicular to the tension mask and a portion opposite the tension mask defining a lower plane with the widths of the middle portion and both ends of the lower plane in the range 0<(width of the middle portion-width of both ends)/ width of both ends <=1.
